Divit Tally Automator for TallyPrime & BUSY

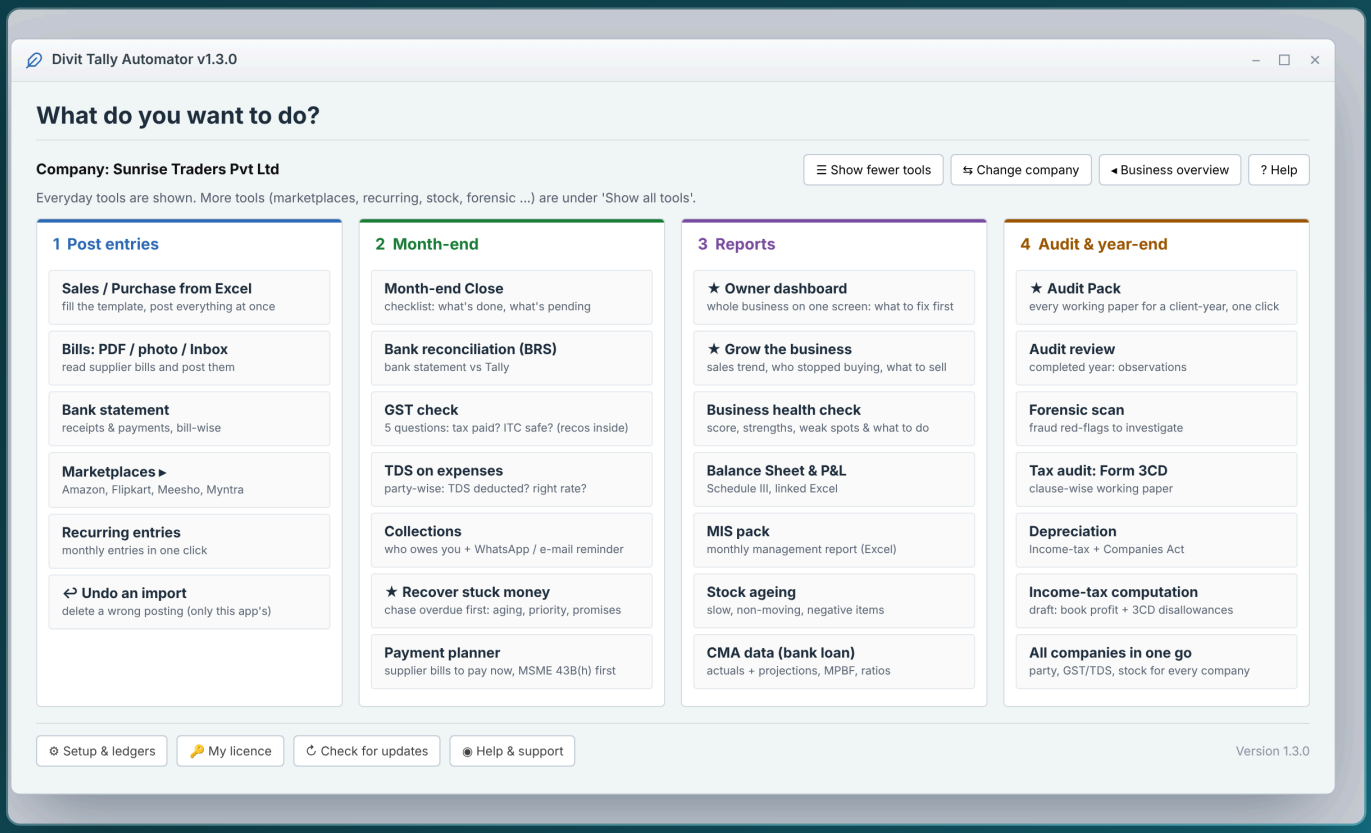

Automate your Tally. And audit it.

Offline, and reconciled to the rupee.

15-day free trial · Windows 10 / 11

Divit Tally Automator does your month's data entry - marketplace, bank and purchase bills into TallyPrime - runs a full audit review and prepares financial statements in seconds, and gives business owners and CA firms a Virtual CFO that reads the books. All on your own computer; your books never leave it.

Data entry automation · Marketplaces · Financial statements · Audit review · Audit Pack · GST & TDS · Virtual CFO

Divit Tally Automator for TallyPrime & BUSY

WHAT IT IS

Tally automation and audit, in one app, inside your own Tally.

Cloud dashboards ask you to upload your books and learn new software. Divit does the opposite - it works on the TallyPrime (or BUSY) you already use, on your own machine, and every figure ties back to your own Balance Sheet and P&L.

Offline & private

Your books stay on your PC. Only a licence check (just the computer's ID) and the optional AI bill reader go online - never your ledgers.

Reconciled to the rupee

Revenue, profit, net worth, cash and the ratios are read from your own Tally and reconcile with your Balance Sheet and P&L - so you and your auditor can act on them.

No migration

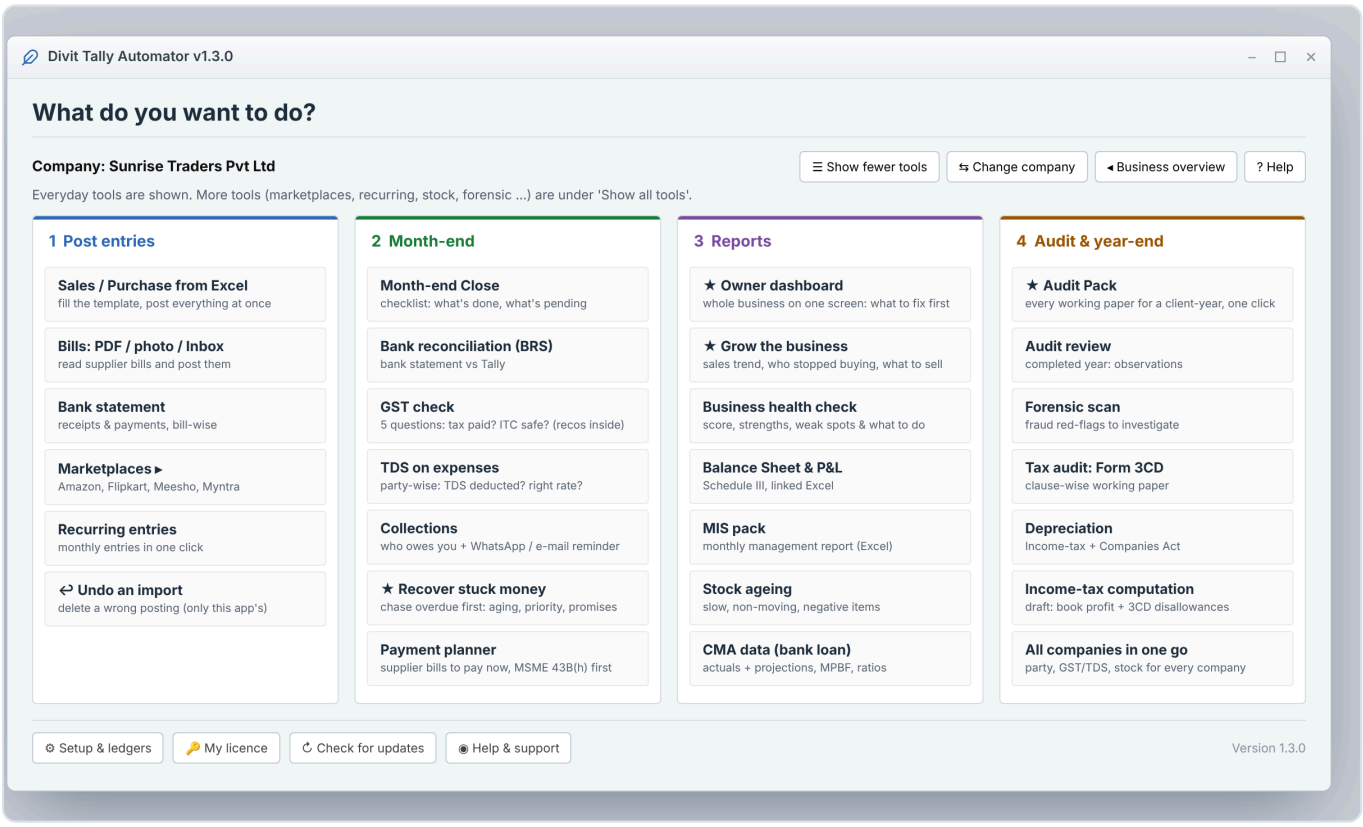

Keep TallyPrime. Divit sits beside it - no new accounting system, no data move. Audit, GST and reports also read BUSY.

Built for India

GST (2B / 1 / 3B), TDS and 26Q, Form 3CD, Audit Pack, marketplace settlements with TCS / TDS, help in Hindi on WhatsApp.

ONE SCREEN, FOUR STAGES

From data entry to audit - everything in one menu.

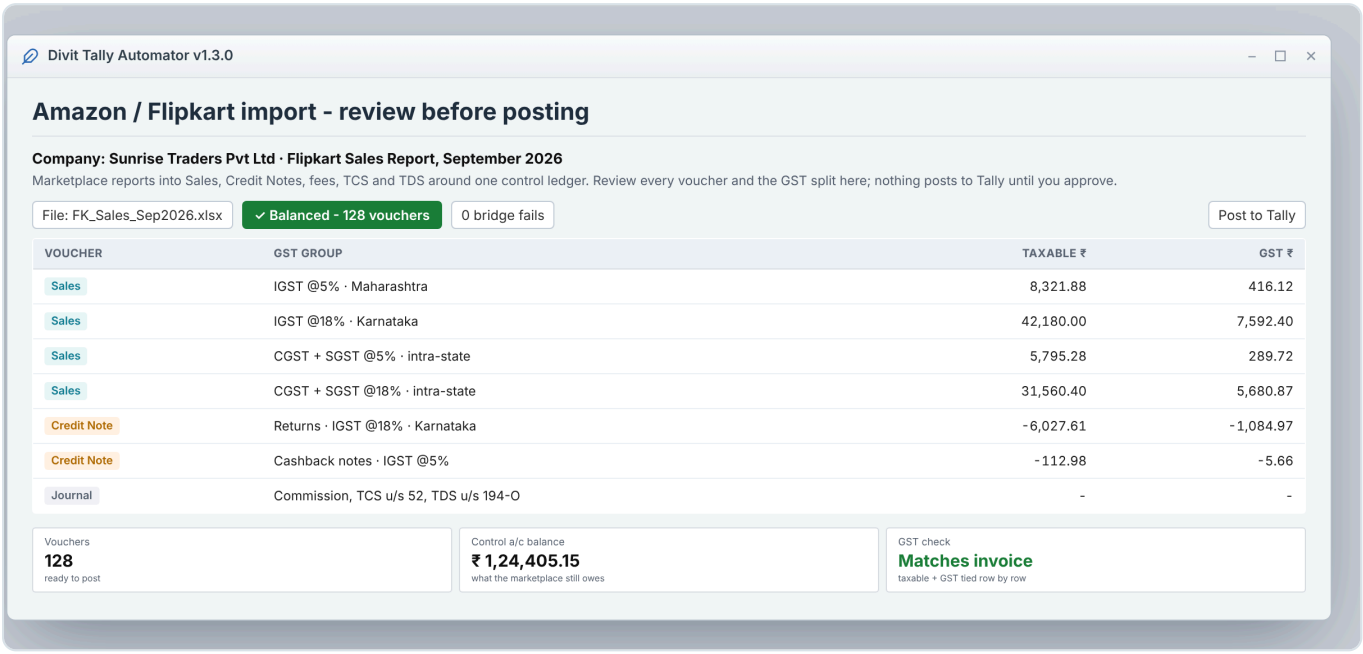

Post the entries, close the month, read the reports, finish the audit.

Divit Tally Automator for TallyPrime & BUSY

DATA ENTRY, AUTOMATED

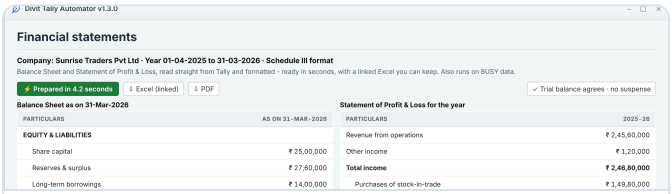

Marketplace, bank and bills into TallyPrime - checked before posting.

Amazon, Flipkart, Meesho and Myntra reports split into Sales, Credit Notes, fees, TCS and TDS around one control ledger - reviewed before posting, double posting stopped, one-click Undo. Bank statements and purchase bills too.

FINANCIALS & AUDIT, IN SECONDS

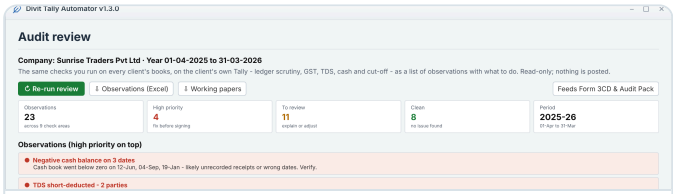

Statements and a full audit review, straight from the client's Tally.

FINANCIAL STATEMENTS

Balance Sheet & P&L in seconds

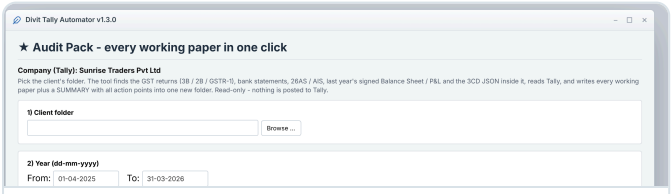

Schedule III format, trial-balance checked, linked Excel. Also runs on BUSY.

AUDIT REVIEW

Every client check, one pass

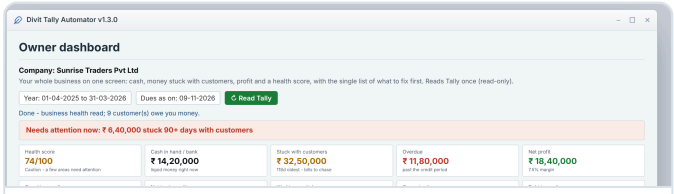

Ledger scrutiny, GST, TDS, cash, cut-off - ranked observations with actions.

AUDIT PACK

Working papers, one run

Form 3CD, GSTR checks, 26AS/AIS, bank reco - one folder for a client-year.

VIRTUAL CFO

The business on one screen

Owner dashboard, recover stuck money, health score, grow the business.

Divit Tally Automator for TallyPrime & BUSY

WHO IT IS FOR

Built for the people who run the numbers - and the business.

Business owners on TallyPrime

Health, cash and overdue on one screen; chase stuck money with ready WhatsApp reminders; bank statements and bills to vouchers between visits.

CA firms & auditors

Advise every client from their own Tally in minutes; audit review, forensic scan, Form 3CD, TDS & 26Q; the Audit Pack for a client-year in one run.

Online sellers & accountants

Amazon, Flipkart, Meesho and Myntra reports into Sales and Credit Notes; rate-wise and state-wise GST; fees, TCS and TDS around one control ledger.

Works with what you have

TallyPrime to read and post; BUSY for reading audit, GST and financials. No migration, no new accounting software.

WHAT YOU NEED

Windows	**10 or 11 (64-bit)**
TallyPrime	**HTTP server on, port 9000**
BUSY (optional)	**XML export, for reports**
Internet	**Once to start, then a licence check**
